

Environmental Solar Systems

Innovative Energy Efficient Solar Products

Environmental Solar Systems is a research and development company, with its main focus on solar products. Founded in 1981, Environmental Solar Systems has invented and built many innovative solar energy efficient products. Patented in USA and patented pending in other countries worldwide.

Solar products include the SunMate Solar Hot Air Panel, Solar Water Heaters, Space Heaters, Solar Cookers and Solar Food/Coffee Dehydrators that range in size to accommodate from 50 to 20,000 pounds of product.

All our solar systems are developed and made in the USA and are manufactured with emphasis on their use having low impact on the environment and require minimal commercial power.
